

Claims

1. A PET bottle comprising:

(a) a bottle main body and a cap that is detachably attached to a mouth portion of the bottle main body;

(b) wherein the bottle main body is made of a thermoplastic resin and consists of a base portion and an ornamental portion; and

(c) wherein the base portion is provided with decompression panels for avoiding deformation, fracture and the like of the bottle main body following compression/decompression inside the bottle main body.

2. A PET bottle according to claim 1, wherein the ornamental portion is formed in an animal or a human shape.

3. A PET bottle according to claim 1 or 2, wherein the cap is formed in a hat shape.
